

Mobile Storage for iOS Devices

JetDrive™ Go 500

Specifically designed for iPhone, iPad, and iPod®, Transcend's JetDrive™ Go 500 Lightning/USB 3.1 flash drive not only expands your iOS device storage by up to 32GB, but also features a sleek zinc alloy casing. Powered by the exclusive JetDrive Go App, the JetDrive Go 500 can do more than you think a flash drive can do!

A flash drive for iPhone, iPad and iPod

The Transcend JetDrive Go 500 is the answer to the frustrating "Cannot Take Photo" alert message. Move photos and videos to the JetDrive Go 500 to instantly free up valuable storage space on your iPhone or iPad.

Versatile JetDrive Go App

The JetDrive Go App features an intuitive interface that allows you to take full advantage of the JetDrive Go 500. Organize and back up photos and videos from your iOS devices to the JetDrive Go 500 in just a few taps. Being able to access files stored on the JetDrive Go 500 without an internet connection allows you to share and view files in all situations.

Shoot and save

Aside from just transferring and backing up files, the JetDrive Go App is also equipped with a snapshot function which allows not only photos and videos, but also audio recordings to be saved directly to the JetDrive Go 500 flash drive right after being recorded. Don't let any fantastic moment slip through your fingers because your iPhone runs out of space. Shoot with the JetDrive Go 500 plugged in!

Mobile Storage for iOS Devices

JetDrive™ Go 500

Features

- Ideal for iPhone, iPad and iPod
- Transfer and backup photos and videos with the JetDrive Go App
- A sleek zinc alloy casing that is available in silver to match your iOS devices
- Dual connector design: Apple® MFi certified Lightning+ USB 3.1 Gen 1
- Available in 32GB capacities

JetDrive Go App

Transcend's JetDrive Go App is designed to work with Transcend's JetDrive Go for iPhone, iPad and iPod to expand storage capacity in a flash. The versatile app makes using the USB flash drive even more powerful, as photos can be saved directly to the USB flash drive right after being taken, and files can be managed more effectively.
